

Lawn Fertilizer Fundraiser

LAWN FERTILIZER 19-12-15 will aid you with proper lawn care. Fertilizing can play an important role in keeping the grass greener on your side of the fence. Fertilizer can reduce the chances of weed growth, protect your investment in new turf and strengthen the roots of your grass.

Benefits:

- Slow release nitrogen
- Long lasting

Guaranteed minimum analysis:

Nitrogen	19% (includes 30% slow release nitrogen)
Phosphate	12%
Potash	15%
Sulfur	6%

PACKAGING

15 kg bag (33.07 lbs); covers 309 m² (3333 sq.ft)

APPLICATION INSTRUCTIONS

1) Apply when lawn is dry. 2) Spread evenly at a rate of 3 kg per 100m² (6.6 lbs per 1000 square feet). Apply using a rotary or drop spreader. 3) Water in well. 4) Apply in early spring and again in summer for best results.

CAUTION

Do not use on cement products such as sidewalks, patios, blocks, stucco, etc.
Will also stain marble, sandstone, limestone and related products.
